

Living Divani @ Lamborghini Day Germany 2025

On June 20th, Living Divani returned as a key presence at **Lamborghini Day Germany 2025**, set within the exclusive venue of HOCH5 in Munich. With its collection of sophisticated and contemporary upholstered furniture, the brand helped shape the atmosphere of the event, overlooking the breathtaking skyline of the Bavarian capital. An exceptional occasion that brought together design pioneers and automotive enthusiasts to celebrate style, speed, and the beauty of Italian craftsmanship.

Curated by **Automobili Lamborghini**, the event offered an immersive, multisensory experience where tradition and innovation merged in a compelling narrative dedicated to the **excellence of Made in Italy**. Guests were taken on a journey into the Lamborghini universe, experiencing firsthand the emotions and values that, from the brand's origins in Sant'Agata Bolognese, continue to propel it onto the global stage.

Within this exclusive setting, Living Divani furnished the indoor and outdoor lounge areas, creating elegant and welcoming environments where guests could relax, converse, and enjoy the experience. A curated selection of iconic pieces defined the style of the setup: the **Extrasoft** modular sofa and **Clan** armchairs by **Piero Lissoni**, the **Rabbit & the Tortoise** coffee tables by **Studio Juju**, and the **Ile** tables, also by Lissoni—elements that added rhythm, structure, and lightness to the space.

On the panoramic rooftop terrace on the seventh floor, the **Kasumi** collection by **Mist-o**, featuring sofas and armchairs, shaped serene and harmonious oases. In a dedicated area, the **Ile Club** sofa and **Hi Tech** armchairs stood out with their pure and contemporary forms, in perfect harmony with Lamborghini's bold and visionary language.

At the intersection of speed and aesthetics, Living Divani continues to celebrate the excellence of Italian lifestyle through an essential, cultured, and timeless design.
