

## Living Divani brings relaxed elegance to the Lamborghini Lounge Porto Cervo

On the occasion of the reopening of the **Lamborghini Lounge Porto Cervo**, Living Divani once again takes center stage as the **relaxing partner**, furnishing the space with elegant and contemporary solutions that create oases of comfort without compromising on style.

Located in the Promenade du Port, the Lounge serves as **Automobili Lamborghini's** summer home in Costa Smeralda: an exclusive venue where performance, design, and lifestyle come together to offer guests unique experiences—from thrilling road drives to bespoke customization in the Ad Personam Studio.

Inside the Lounge, Living Divani showcases its vision of sophisticated comfort. In the main area, the spotlight is on the **Clan** seating collection—sofa and armchairs designed by **Piero Lissoni**—which defines a laid-back yet strongly distinctive atmosphere.

In the Ad Personam area, where clients can configure their own Lamborghini, the natural chestnut **Wedge** table (designed by **Arik Levy**) is paired with **Maja D** armchairs—versatile pieces that blend functionality with refined simplicity, also designed by **Piero Lissoni**.

Finally, in the outdoor area, the veranda features the **Kasumi and Balestro 24** collections, designed by **Mist-o** and **Piero Lissoni** respectively. The former, available as a sofa and armchair, strikes a balance between lightness and visual presence; the latter reimagines the concept of outdoor upholstery, combining comfort, durability, and design character.

Through this collaboration, Living Divani reaffirms its role as an ambassador of contemporary Italian design, bringing its vision of living into an immersive experience curated by Lamborghini.
