LIVING

D I V A N I

Another edition of the **Milano Design Week** has come to a close.

A week of visions, encounters, and suspended atmospheres, where shapes, materials, and light created an **ever-evolving setting** between Living Divani stand and Living Divani Gallery.

The **2026 novelties** intertwined with the brand's essential aesthetic, giving life to spaces capable of evoking silent emotions, sophisticated harmonies, and new perspectives on contemporary living.

To relive the essence of this experience, we have gathered images, details, and inspirations into a **video narrative**: a journey through the language of Living Divani, among design research, beauty, and design culture.

Enjoy the video!
